

## Paladin Classic

This mesh offers a unique and distinctive appearance. The fence provides a high quality design, low maintenance and long life by using of galvanised wire and high build bonded polyester coating. The system is ideal solution for most types of boundary and low/medium security applications.

Paladin Panels are even edged all round with additional reinforcing wires at the top and bottom with beam profiles. The fixing system utilise 25x5mm continuous flat clamp bars to secure the overlapped panels to the front face of the post. This system is highly recommended by Police and insurance companies.

### Applications:

- Residential Areas
- Schools and Colleges
- Commercial Sites
- Stations and Airports
- Industrial Estates
- Motorways

### Specification:

**Mesh Pattern:** Varies to 50x50 max, welded at each intersection

**Horizontal wires:** 3mm dia at 50mm centres with 4mm dia in the "V" beams

**Vertical Wires:** 3mm dia at 50mm and 12.5mm centres

**Top:** Panel has flushed top with additional reinforcing wires at the top and bottom.

**Post Centre:** 2.973 approximate

**Standard Finish:** Green (6005) and Black (9005)

There is an option of a wide range of colours.

Fence Height	Panel (HxW)	Beams (V)	Panel Weight(KG)	Post Dimension	Post Length
1.2m	1240x3025	2	15.0	60 x 60	1.80m
1.8m	1850x3025	2	21.3	60 x 60	2.45m
2.0m	2000x3025	3	22.1	60 x 60	2.65m
2.4m	2440x3025	3	28.4	60 x 60	3.10m

To achieve fence heights in excess of 2.4m the panels are designed for multi-lift erection, ie one or more panels placed above the bottom panel.
