Look inside for an overview of our fencing products, please contact our office if you require a different type and we will be happy to help.

Palisade Fencing

Palisade Fencing offers the ultimate in security. Once assembled it offers a fencing system that is robust, long lasting and a formidable deterrent against crime & vandalism. Palisade is available in a variety of pales & pale profiles:

D-Shape Pale, Rounded Top, Rounded & Notched, Single Pointed & Tripple Pointed

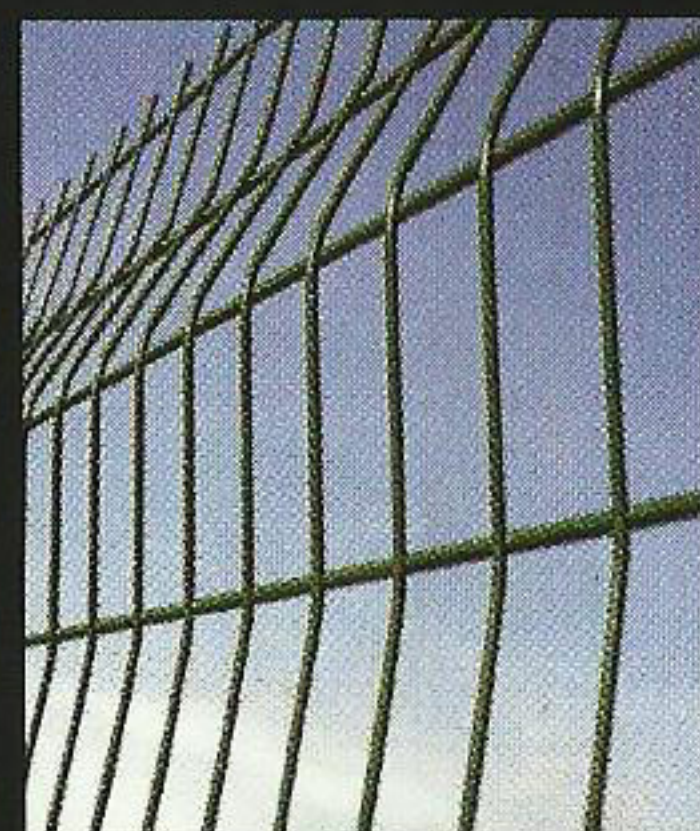

W-Shape Pale, Rounded Top, Rounded & Notched, Single Pointed & Tripple Pointed

All steel palisade products are supplied hot dip galvanised to give long term weather resist. Pales can also be powder coated to any RAL colour required. Pales are available in varied heights of 1800mm, 2000mm, 2100mm, 2400mm, 3000mm. Matching gates are also available, fabricated to your specific requirements. Pales are also available in different thicknesses- 2mm, 2.5mm & 3mm. This fencing is adjustable so it can be fitted to follow the gradient of the land.

Mesh Fencing

Mesh Fencing is suitable for many applications and is a cost effective perimeter solution. It comes in various styles and is polyester powder coated to a choice of RAL colours. All styles have matching gates available and have an unobtrusive design. They are available in a range of heights from 1000mm to 3000mm.

V - Mex Mesh

The weld-mesh panels with longitudinal profiles are manufactured from 6mm horizontal and 5mm vertical wires to give 200mm x 50mm maximum wire centre spacings.

Zebex Mesh

The stylish stripe effect insures that Zebex remains the most popular mesh fence system. Panels are manufactured from 6mm horizontals and 4mm vertical wires. The stripe effect is formed by a combination of five 50mm x 22mm and two 150mm x 40mm apertures.

Fortex Mesh

Fortex 358 or 'prison' mesh is a high security mesh. The panels are overlapped at each post and secured by a full length clamp strip, dome headed bolts and permacone security fixings. Panels available upto 5200mm high. Compliant with BS1722 pt 14.

Duex Mesh

Duex 868 is principally designed for a sports environment. The configuration of durable 8mm horizontal wire sandwiching a 6mm vertical wire is ideal for ball rebound and offers a robust perimeter solution.

Bow Top Railings

Bow top railings are compliant with BS 1722 Pt.9. They have a welded construction, hot dip galvanised and powder coated to a standard RAL colour. They also come in various top designs. Heights range from 600mm to 2000mm.

Standard Bow Top

Hollington Top

Blythe Top

Tittesworth Top

Interlaced Top

All fencing comes with matching posts & fixings and there are many types of locking systems available.
